Accounting Practices

The accompanying statutory-basis financial statements of Talcott Resolution International Life Reassurance Corporation (the "Company" or "TIL") have been prepared in conformity with statutory accounting practices prescribed or permitted by the State of Connecticut Insurance Department ("the Department"). The Department recognizes only statutory accounting practices prescribed or permitted by the State of Connecticut for determining and reporting the financial condition and results of operations of an insurance company and for determining solvency under the State of Connecticut Insurance Law. The National Association of Insurance Commissioners' Accounting Practices and Procedures Manual ("NAIC SAP") has been adopted as a component of prescribed practices by the State of Connecticut.

Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with the National Association of Insurance Commissioners ("NAIC") Annual Statement Instructions and NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported periods. Actual results could differ from those estimates. The most significant estimates include those used in determining the liability for aggregate reserves for future benefits and the liability for premium and other deposit funds. Although some variability is inherent in these estimates, management believes the amounts provided are adequate.

Accounting Policy

Life premiums are recognized as income over the premium paying period of the related policies.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

("The Hartford"). The Company's contributions included a non-elective contribution of 2% of eligible compensation and a dollar-for-dollar matching contribution of up to 6% of eligible compensationcontributed by the employee each pay period. The Hartford also maintained a non-qualified savings plan, The Hartford Excess Savings Plan, with the same level of matching contributions excluding the non-elective contributions with respect to employee compensation in excess of the limit that can be recognized under the tax-qualified Investment and Savings Plan. Eligible compensation included overtime and bonuses but was limited to a total of \$1,000,000 annually. Participation in this plan was terminated effective May 31, 2018, as a result of the Talcott Resolution sale transaction. The cost allocated to the Company for the year ended December 31, 2018 was immaterial.

Consolidated/Holding Company Plans

The Hartford maintained The Hartford Retirement Plan for U.S. employees, a U.S. qualified defined benefit pension plan (the "Plan"), that covered substantially all U.S. employees of the Company hired prior to January 1, 2013. The Hartford also maintained non-qualified pension plans to provide retirement benefits previously accrued that are in excess of Internal Revenue Code limitations. These plans were collectively referred to as the "Pension Plans." Participation in the Plans was terminated effective May 31, 2018, as a result of the Talcott Resolution sale transaction.

Effective December 31, 2012, The Hartford amended the Plan to freeze participation and benefit accruals. As a result, employees will not accrue further benefits under the Plan, although interest will continue to accrue to existing account balances. Participants as of December 31, 2012 continued to earn vesting credit with respect to their frozen accrued benefits as they continued to work. The freeze also applied to The Hartford Excess Pension Plan II, The Hartford's non-qualified excess pension benefit plan for certain highly compensated employees.

The Hartford also provided certain health care and life insurance benefits for eligible retired employees. The Hartford's contribution for health care benefits will depend upon the retiree's date of retirement and years of service. In addition, the plan has a defined dollar cap for certain retirees which limits average company contributions. The Hartford prefunded a portion of the health care obligations through a trust fund where such prefunding can be accomplished on a tax effective basis. Effective January 1, 2002, company-subsidized retiree medical, retiree dental and retiree life insurance benefits were eliminated for employees with original hire dates on or after January 1, 2002. As of December 31, 2012, The Hartford's other postretirement medical, dental and life insurance coverage plans were amended to no longer provide subsidized coverage for current employees who retire on or after January 1, 2014. Participation in this plan was terminated effective May 31, 2018, as a result of the Talcott Resolution sale transaction.

The expenses allocated to the Company for the Pension Plans and other postretirement benefits were not material to the results of operations for 2018.

The Company participates in Talcott sponsored postemployment plans that provide for medical and salary replacement benefits for employees on long-term disability. Assessments

1. Liability and Related Asset

In all states, insurers licensed to transact certain classes of insurance are required to become members of a guaranty fund. In most states, in the event of the insolvency of an insurer writing any such class of insurance in the state, members of the funds are assessed to pay certain claims of the insolvent insurer. A particular state's fund assesses its members based on their respective written premiums in the state for the classes of insurance in which the insolvent insurer was engaged. Assessments are generally limited for any year to one or two percent of premiums written per year, depending on the state.

Under insurance guaranty fund laws in each state, the District of Columbia and Puerto Rico, insurers licensed to do business can be assessed by state insurance guaranty associations for certain obligations of insolvent insurance companies to policyholders and claimants. Part of the assessments paid by/refunded to the Company pursuant to these laws may be used as credits for a portion of the associated premium taxes.
