Note 1 - Summary of Significant Accounting Policies and Going Concern

Accounting Practices

The accompanying statutory-basis financial statements of American Maturity Life Insurance Company (the "Company" or "AML") have been prepared in conformity with statutory accounting practices prescribed or permitted by the State of Connecticut Insurance Department ("the Department"). The Department recognizes only statutory accounting practices prescribed or permitted by the State of Connecticut for determining and reporting the financial condition and results of operations of an insurance company and for determining solvency under the State of Connecticut Insurance Law. The National Association of Insurance Commissioners' Accounting Practices and Procedures Manual ("NAIC SAP") has been adopted as a component of prescribed practices by the State of Connecticut.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed by the Department is shown below:

8. NAIC SAP (5-6-7=8)	XXX	XXX	XXX	\$ 50,328,899	\$ 49,636,999

Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with the National Association of Insurance Commissioners ("NAIC") Annual Statement Instructions and NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported periods. Actual results could differ from those estimates. The most significant estimates include those used in determining the liability for aggregate reserves for future benefits. Although some variability is inherent in these estimates, management believes the amounts provided are adequate.

Accounting Policy

Annuity considerations are recognized as revenue when received.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- Short-term investments include all investments whose maturities, at the time of acquisition, are one year or less and are stated at amortized cost.
- Other than loan-backed and structured securities, investments in unaffiliated bonds rated in NAIC classes 1 through 5 are carried at amortized cost, and 2 unaffiliated bonds rated in NAIC class 6 are carried at the lower of amortized cost or fair value.
- The Company has no investments in common stocks.
- The Company has no investments in preferred stocks. 4.
- 5. The Company has no investments in mortgage loans.
- The Company has no investments in loan-backed bond and structured securities. 6
- 7. The Company has no investments in subsidiaries.
- 8. The Company has no investments in joint ventures, partnerships, and limited liability companies.
- 9. The Company has no investments in derivatives.
- The Company considers anticipated investment income as a factor in the premium deficiency calculation in accordance with SSAP No. 54 Revised, Individual and Group Accident and Health Contracts.
- 11 The Company does not have any accident and health policies.
- The Company's capitalization policy changed effective January 1, 2020 when the Company adopted the revisions to SSAP No. 16R Electronic Data Processing Equipment and Software related to customer's accounting for the implementation cost incurred in a cloud computing arrangement that is a service contract. The Company adopted the guidance on a prospective basis to all implementation costs incurred after the date of adoption. Upon adoption, hosting arrangements that are service contracts will capitalize implementation costs as nonoperating system software and report them as a nonadmitted asset. These implementation costs will be recognized as each component of the hosting arrangement is ready for its intended use. Hosting arrangements that are not service contracts will be amortized over the lesser of the term of the hosting agreement for up to five years. This change in policy did not have a material impact on the financial statements.
- 13. The Company has no pharmaceutical rebate receivables.

Going Concern

The Company is not aware of any conditions or events which raise substantial doubts concerning the Company's ability to continue as a going concern.

Note 2 - Accounting Changes and Corrections of Errors

Accounting Changes

In 2019, the NAIC amended SSAP No. 101R - Income Taxes to reflect the impact of the Federal Tax Cuts and Jobs Act along with clarification to certain admittance quidance for deferred tax assets. It was effective December 31, 2019, and there was no material impact to the Company

In 2019, the NAIC adopted revisions drafted by the Life Actuarial Task Force to Section 21 of the Valuation Manual Requirements for Principle-Based Reserves for Variable Annuities ("VM-21") and Actuarial Guideline XLIII CARVM for Variable Annuities ("AG 43") which provided comprehensive updates to the Commissioners Annuity Reserve Valuation Method ("CARVM"). The revisions adopted to VM-21 and AG 43 represented an accounting change that must be recognized as a change in valuation basis under SSAP No. 51R-Life contracts. They were effective January 1, 2020 and there was no material impact to the Company.

Recently Issued Accounting Standards

In 2020, the NAIC adopted revisions to SSAP No. 86 - Derivatives to ensure reporting consistency for derivatives with financing components. The Company is adopting these revisions effective January 1, 2021 as required by the guidance. The revised guidance requires reporting derivatives gross of any amounts owed to/ from the reporting entity from the acquisition or writing of the derivative (derivative premiums payable and receivable). Upon adoption, the Company will separately report derivative premiums payable and receivable as components of Receivables from securities and Payables for securities reflecting amounts currently netted in Derivatives assets and Derivatives liabilities for derivatives which include financing components.

In 2020, the NAIC revised SSAP No. 32 - Preferred Stock to update definitions, measurement, and impairment guidance for preferred stock. Adoption of this guidance will modify the measurement of the Company's perpetual preferred stock with NAIC ratings 1-3 from amortized cost to fair value. This is effective January 1, 2021 with early adoption permitted in 2020. The Company will adopt this guidance in 2021, and the impact is not expected to be material to the Company.

Note 11 - Debt

- A. The Company has no outstanding debt.
- The Company is not party to any Federal Home Loan Bank agreements.

Note 12 - Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A - D. Defined Benefit Plans

The Company has no direct plans.

E. Defined Contribution Plans

As of June 1, 2018, TL adopted a investment and savings Plan, the Talcott 401(k) Plan and a non-qualified savings plan, the Talcott Resolution Deferred Compensation Plan. Effective December 31, 2018, both plans were assigned to Talcott Resolution Life Inc., the Company's indirect parent. Substantially all U.S. employees of the Company are eligible to participate in the Talcott 401(k) Plan under which designated contributions can be invested in a variety of investments. The Company's contributions include a non-elective contribution of 2% of eligible compensation and a dollar-for-dollar matching contribution of up to 6% of eligible compensation contributed by the employee each pay period. The Talcott Resolution Deferred Compensation Plan has a 6% matching contribution for eligible compensation earned in excess of the 401(a)(17) limit, currently \$275,000. Eligible compensation includes salary and bonuses and participants can defer up to 80% of their eligible pay. The cost allocated to the Company for the years ended December 31, 2020 and 2019 was immaterial.

F. Multiemployer Plans

The Company has no multiemployer plans.

G. Consolidated/Holding Company Plans

The Company participates in Talcott sponsored postemployment plans that provide for medical and salary replacement benefits for employees on long-term disability. The expenses allocated to the Company for long term disability were not material to the results of operations for the years ended December 31, 2020 and 2019.

Postemployment Benefits and Compensated Absences

The Company has no direct postemployment benefits and compensated absences.

Impact of Medicare Modernization Act on Postretirement Benefits (INT 04-17)

There was no impact from the Modernization Act on Medicare postretirement benefits (INT 04-17) to the Company

Note 13 - Capital and Surplus, Shareholders' Dividend Restrictions and Quasi-Reorganizations

- The Company has 15,000 shares of common capital stock authorized and 12,500 shares issues and outstanding. The par value of the stock is \$200.
- 2. The Company has no preferred shares authorized.
- The maximum amount of dividends which can be paid to shareholders by Connecticut domiciled insurance companies, without prior approval of the Connecticut Insurance Commissioner ("the Commissioner"), is generally restricted to the greater of 10% of surplus as of the preceding December 31st or the net gain from operations after dividends to policyholders, federal income taxes and before realized capital gains or (losses) for the previous year. In addition, if any dividend exceeds the insurer's earned surplus, it requires the prior approval of the Commissioner. Dividends are paid as determined by the Board of Directors in accordance with state statutes and regulations, and are not cumulative. With respect to dividends to its parent TL, the Company's dividend limitation under the holding company laws of Connecticut is \$0 in 2021. Because the Company's earned surplus is negative as of December 31, 2020, the Company will not be permitted to pay any dividends to TL in 2021 without prior approval from the Commissioner until such time as earned surplus becomes positive.
- The Company paid no dividends in 2020 and 2019.
- Within the limits of (3) above, there are no additional restrictions placed on the portion of Company profits that may be paid as ordinary dividends to
- No restrictions have been placed on the unassigned funds of the Company. 6.
- 7 The Company is not organized as a mutual company.
- No stock is being held by the Company for special purposes.
- The Company had no changes in the balances of any special surplus funds from the prior period.
- 10. The portion of unassigned funds (surplus) represented or reduced by cumulative unrealized gains and (losses) is \$0.
- 11. The Company has no surplus notes outstanding.
- 12. The Company had no restatements due to quasi-reorganization.
- 13. The Company had no quasi-reorganizations.

Assessments

Liability and Related Asset

In all states, insurers licensed to transact certain classes of insurance are required to become members of a guaranty fund. In most states, in the event of the insolvency of an insurer writing any such class of insurance in the state, members of the funds are assessed to pay certain claims of the insolvent insurer. A particular state's fund assesses its members based on their respective written premiums in the state for the classes of insurance in which the insolvent insurer was engaged. Assessments are generally limited for any year to one or two percent of premiums written per year, depending on the state.

Under insurance guaranty fund laws in each state, the District of Columbia and Puerto Rico, insurers licensed to do business can be assessed by state insurance guaranty associations for certain obligations of insolvent insurance companies to policyholders and claimants. Part of the assessments paid by/refunded to the Company pursuant to these laws may be used as credits for a portion of the associated premium taxes. The Company paid no guaranty fund assessments in 2020 and 2019. The Company had a guaranty fund receivable of \$0 as of both December 31, 2020 and 2019.

NOTES TO FINANCIAL STATEMENTS

Note 20 - Fair Value Measurements

Fair value is determined based on the "exit price" notion which is defined as the price that would be received to sell an asset in the principal or most advantageous market for the asset in an orderly transaction between market participants. The Company's Separate Account assets are held at fair value.

The Company's investment manager for the Company's general account (a registered investment adviser under the Investment Advisers Act of 1940), with oversight by the Company's Investment Management Department and its Finance and Investment Committee ("FIC"), a committee co-chaired by the Chief Investment Officer and the Chief Risk Officer of the Company, estimates the fair value for financial assets held in the Company's general account and guaranteed separate accounts based on the framework established in the fair value accounting guidance. The Company reviews its investment manager's pricing policy on a periodic basis, with any changes to be approved by the FIC. The Company reserves the right to take exception to its investment manager's pricing of a particular asset and, with FIC's approval, to adjust the price received from its investment manager for that particular asset. The following section applies the fair value hierarchy and disclosure requirements for the Company's Separate Account assets, and categorizes the inputs in the valuation techniques used to measure fair value into three broad Levels (Level 1, 2, or 3):

- Unadjusted quoted prices for identical assets in active markets that the Company has the ability to access at the measurement date. Level 1 securities Level 1 include open-ended mutual funds reported in Separate Account assets
- Level 2 Observable inputs, other than quoted prices included in Level 1, for the asset or prices for similar assets. Certain short-term investments reported in Separate Account assets are model priced by vendors using observable inputs and are classified within Level 2.
- Level 3 Valuations that are derived from techniques in which one or more of the significant inputs are unobservable (including assumptions about risk). Because Level 3 values, by their nature, contain one or more significant unobservable inputs as there is little or no observable market for these assets and liabilities, considerable judgment is used to determine the Level 3 fair values. Level 3 fair values represent the Company's best estimate of an amount that could be realized in a current market exchange absent actual market exchanges.

In many situations, inputs used to measure the fair value of an asset may fall into different levels of the fair value hierarchy. In these situations, the Company will determine the level in which the fair value falls based upon the lowest level input that is significant to the determination of the fair value. In most cases, both observable (e.g., changes in interest rates) and unobservable (e.g., changes in risk assumptions) inputs are used in the determination of fair values that the Company's investment manager has classified within Level 3. Consequently, these values and the related gains and losses are based upon both observable and unobservable inputs. The Company's bonds included in Level 3 are classified as such because these securities are primarily within illiquid markets and/or priced by independent brokers.

1. The following table presents assets carried at fair value by hierarchy level:

	December 31, 2020							
	(Amounts in thousands)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total			
a.	Assets accounted for at fair value							
	Separate Account assets	\$ 14,610	\$	\$	\$ 14,610			
	Total assets accounted for at fair value	\$ 14,610	\$	\$	\$ 14,610			
b.	Liabilities accounted for at fair value							
	N/A	\$	\$	\$	\$ _			
	Total liabilities accounted for at fair value	\$ -	\$	\$	\$ _			

Fair values and changes in the fair values of Separate Account assets generally accrue directly to the policyholders and are not included in the Company's revenues

Valuation Techniques, Procedures and Controls

The Company determines the fair values of certain financial assets and liabilities based on quoted market prices where available and where prices represent reasonable estimates of fair value. The Company also determines fair values based on future cash flows discounted at the appropriate current market rate. Fair values reflect adjustments for counterparty credit quality, the Company's default spreads, liquidity and, where appropriate, risk margins on unobservable parameters.

The fair value process is monitored by the Valuation Committee of the Company's investment manager, which is a cross-functional group of senior management that meets at least quarterly. The purpose of the committee is to oversee the pricing policy and procedures by ensuring objective and reliable valuation practices and pricing of financial instruments as well as addressing valuation issues and approving changes to valuation methodologies and pricing sources. There are also two working groups under the Valuation Committee of the Company's investment manager, a Securities Valuation Group and a Derivatives Valuation Group, which include various investment, operations, accounting, compliance and risk management professionals that meet on a regular basis, to review market data trends, pricing and trading statistics and results, and any proposed pricing methodology changes.

In addition, the Finance and Investment Committee of the Company, co-chaired by its Chief Investment Officer and Chief Financial Officer, is responsible for the approval and monitoring of the Valuation Policy of the Company as well as the adjudication of any valuation disputes thereunder. The Valuation Policy addresses valuation of all financial instruments held in the general account and guaranteed separate accounts of the Company, including all derivative positions. The Finance and Investment Committee meets regularly, and its members include a cross-functional group of senior management as well as various investment, accounting, finance, and risk management professionals.

The Company also has an enterprise-wide Operational Risk Management function which is responsible for establishing, maintaining and communicating the framework, principles and guidelines of the Company's operational risk management program. This includes model risk management which provides an independent review of the suitability, characteristics and reliability of model inputs as well as an analysis of significant changes to current models.

NOTES TO FINANCIAL STATEMENTS

Bonds and Stocks

The fair values of bonds and stocks in an active and orderly market (e.g., not distressed or forced liquidation) are determined by the Company's investment manager using a "waterfall" approach utilizing the following pricing sources: quoted prices for identical assets or liabilities, prices from third-party pricing services, independent broker quotations, or internal matrix pricing processes. Typical inputs used by these pricing sources include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, and/or estimated cash flows, prepayment speeds, and default rates. Most bonds do not trade daily. Based on the typical trading volumes and the lack of quoted market prices for bonds, third-party pricing services utilize matrix pricing to derive security prices. Matrix pricing relies on securities' relationships to other benchmark quoted securities, which trade more frequently. Pricing services utilize recently reported trades of identical or similar securities making adjustments through the reporting date based on the preceding outlined available market observable information. If there are no recently reported trades, the third-party pricing services may develop a security price using expected future cash flows based upon collateral performance and discounted at an estimated market rate. Both matrix pricing and discounted cash flow techniques develop prices by factoring in the time value for cash flows and risk, including liquidity and credit.

Prices from third-party pricing services may be unavailable for securities that are rarely traded or are traded only in privately negotiated transactions. As a result, certain securities are priced via independent broker quotations which utilize inputs that may be difficult to corroborate with observable market based data. Additionally, the majority of these independent broker quotations are non-binding.

The Company's investment manager utilizes an internally developed matrix pricing process for private placement securities for which the Company is unable to obtain a price from a third-party pricing service. The process is similar to the third-party pricing services. The Company's investment manager develops credit spreads each month using market based data for public securities adjusted for credit spread differentials between public and private securities which are obtained from a survey of multiple private placement brokers. The credit spreads determined through this survey approach are based upon the issuer's financial strength and term to maturity, utilizing independent public security index and trade information and adjusting for the non-public nature of the securities. Credit spreads combined with risk-free rates are applied to contractual cash flows to develop a price.

The Company's investment manager performs ongoing analyses of the prices and credit spreads received from third parties to ensure that the prices represent a reasonable estimate of the fair value. In addition, the Company's investment manager ensures that prices received from independent brokers represent a reasonable estimate of fair value through the use of internal and external cash flow models utilizing spreads, and when available, market indices. As a result of these analyses, if the Company's investment manager determines that there is a more appropriate fair value based upon the available market data, the price received from the third party is adjusted accordingly and approved by the Valuation Committee of the Company's investment manager.

The Company's investment manager conducts other specific monitoring controls around pricing. Daily, weekly and monthly analyses identify price changes over predetermined thresholds for bonds and equity securities. Monthly analyses identify prices that have not changed, and missing prices. Also on a monthly basis, a second source validation is performed on most sectors. Analyses are conducted by a dedicated pricing unit that follows up with trading and investment sector professionals and challenges prices with vendors when the estimated assumptions used differs from what the Company's investment manager feels a market participant would use. Examples of other procedures performed include, but are not limited to, initial and ongoing review of third-party pricing services' methodologies, review of pricing statistics and trends and back testing recent trades.

The Company's investment manager has analyzed the third-party pricing services' valuation methodologies and related inputs, and has also evaluated the various types of securities in its investment portfolio to determine an appropriate fair value hierarchy level based upon trading activity and the observability of market inputs. Most prices provided by third-party pricing services are classified into Level 2 because the inputs used in pricing the securities are observable. Due to the lack of transparency in the process that brokers use to develop prices, most valuations that are based on brokers' prices are classified as Level 3. Some valuations may be classified as Level 2 if the price can be corroborated with observable market data.

Valuation Inputs for Separate Account Assets

Separate Account assets are primarily invested in mutual funds but also have investments in bonds and stocks. For Level 1 investments, valuations are based on observable inputs that reflect quoted prices for identical assets in active markets that the Company has the ability to access at the measurement date.

For the Separate Accounts' Level 2 bond securities, typical inputs used by pricing techniques include, but are not limited to, benchmark yields, reported trades, broker/ dealer quotes, issuer spreads, benchmark securities, bids, offers, and/or estimated cash flows, prepayment speeds, and default rates.

Financial Instruments For Which Not Practicable to Estimate Fair Values

At December 31, 2020, the Company had no investments where it was not practicable to estimate fair value.

Financial Instruments Measured Using the NAV

The Company had no investments measured using the NAV.

Note 21 - Other Items

A. Unusual or Infrequent Items

The Company had no unusual or infrequent items during the reporting period.

B. Troubled Debt Restructuring Debtors

The Company had no troubled debt restructurings during the reporting period.

C. Other Disclosures

The continuing impact of the outbreak of the novel coronavirus ("COVID-19") and the related disruption to the worldwide economy are affecting companies across all industries. Worldwide health emergency measures to combat the spread of the virus have caused severe disruption resulting in an economic slowdown. The duration and impact of the ongoing COVID-19 public health crises on the financial markets, overall economy and our operations are still uncertain, as is the efficacy of government and central bank interventions. Additionally, further actions regulators may take in response to the COVID-19 public health crisis could impact financial markets and our operations. At this time, the Company is not able to reliably estimate the length and severity of the COVID-19 public health crises and, as such, cannot fully quantify its impact on the financial results, liquidity and capital resources of the Company and its operations in future periods. The Company has reviewed COVID-19 related Interpretations from the Statutory Accounting Principles Working Group of the NAIC. These interpretations as well as relief granted to customers to date have not had a material impact on the Company's financial condition or results of operations.

D. Business Interruption Insurance Recoveries

No business interruption insurance recoveries were received.

E. State Transferable and Non-transferable Tax Credits

The Company had no unused state transferable or nontransferable tax credits.

Subprime Mortgage-Related Risk Exposure

The Company has no subprime mortgage-related risk exposure.

G. Retained Assets

The Company has no retained assets.

Insurance-Linked Securities (ILS) Contracts

The Company had no insurance-linked securities contracts.

Realized Amount on Life Insurance

The Company had no ownership of or rights to control life insurance policies.

Note 22 - Events Subsequent

On January 18, 2021 the Company's indirect owners, Hopmeadow Holdings GP LLC, and Hopmeadow Holdings LP, entered into a definitive agreement to merge Hopmeadow Holdings LP with a subsidiary of Sixth Street, a leading global investment firm. The merger is subject to regulatory approvals and other customary closing conditions and is expected to close in the second quarter of 2021. As part of the transaction, the Company will have new indirect owners.

The Company had no other material subsequent events through the filing date of February 24, 2021.

Note 23 - Reinsurance

A. Ceded Reinsurance Report

Section 1 - General Interrogatories

- There are no reinsurers listed in Schedule S as non-affiliated, owned in excess of 10% or controlled, either directly or indirectly, by the Company or by any representative, officer, trustee, or director of the Company.
- No policies issued by the Company have been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) which is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor of an insured or any other person not primarily engaged in the insurance business.

Section 2 - Ceded Reinsurance Report - Part A

- The Company has no reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment
- The Company has no reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts which, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsurance policies.

Section 3 - Ceded Reinsurance Report - Part B

- The estimated amount of the aggregate reduction in surplus, for agreements not reflected in Section 2 above, of termination of all reinsurance agreements, by either party, as of the date of this statement is \$0.
- There have been no new agreements executed or existing agreements amended, since January 1 of the year of this statement, to include policies or contracts which were in-force or which had existing reserves established by the Company as of the effective date of the agreement.

The Company did not write off any uncollectible reinsurance during the year.

Commutation of Ceded Reinsurance

The Company has not commuted any ceded reinsurance during the year.

Note 33 - Analysis of Life Actuarial Reserves by Withdrawal Characteristics

The Company has no life actuarial reserves.

Note 34 - Premium and Annuity Considerations Deferred and Uncollected

The Company has no premium and annuity considerations deferred and uncollected.

Note 35 - Separate Accounts

Separate Account Activity

The Company maintained Separate Account assets totaling \$14,609,902 and \$13,281,937 at December 31, 2020 and 2019, respectively. The Company utilizes Separate Accounts to record and account for assets and liabilities for particular lines of business and/or transactions. For the current reporting year, the Company reported assets and liabilities from group and individual variable annuity product lines in Separate Accounts.

In accordance with the domiciliary state procedures for approving items within the Separate Account, the Separate Account classification is supported by state statute.

Annual Statement for the year 2020 of the AMERICAN MATURITY LIFE INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS

Some assets are considered legally insulated whereas others are not legally insulated from the General Account.

As of December 31, 2020 and 2019, the Company Separate Account statement included legally insulated assets of \$14,464,987 and \$13,136,951, respectively. The assets legally insulated from the General Account are attributed to the following product lines as of:

		December 31, 2020 December 31, 2019						1, 2019
Product Lines		Legally Insulated Assets	(Assets (not legally insulated)		Legally Insulated Assets	(Assets (not legally insulated)
Group variable annuities	\$	14,340,221	\$	_	\$	12,959,901	\$	144,446
Individual variable annuities	l	124,766		_		177,050		_
Modified Guarantee Contracts	l	_		144,915		_		_
Total	\$	14,464,987	\$	144,915	\$	13,136,951	\$	144,446

In accordance with the product lines recorded within the Separate Account statement, some Separate Account liabilities are guaranteed by the General Account, wherein the Company contractually guarantees either a minimum return or account value to the policyholder.

Separate Account liabilities are determined in accordance with prescribed actuarial methodologies, which approximate the market value less applicable surrender charges. The resulting surplus, net of reinsurance, is recorded in the General Account Summary of Operations as a component of Net Transfers to or (from) Separate Accounts.

For the year ended December 31, 2020, the General Account of the Company had a maximum guarantee for Separate Account liabilities of \$0. To compensate the General Account for the risk taken, the Separate Account has paid risk charges as follows for the past five years:

a.	2020	\$ —
b.	2019	\$ —
c.	2018	\$ —
d.	2017	\$ —
e.	2016	\$ —

As of December 31, 2020, the General Account of the Company had paid no Separate Account guarantees. The total Separate Account guarantees paid by the General Account for the preceding four years ending December 31, 2019, 2018, 2017, and 2016 were \$0.

The Company does not engage in securities lending transactions within the Separate Accounts.

General Nature and Characteristics of Separate Accounts Business

Investment income (including investment gains and losses) and interest credited to policyholders on Separate Account assets are not separately reflected in the Summary of Operations.

Separate Account fees, net of minimum guarantees, were \$111,843 and \$110,942 for the years ended December 31, 2020 and 2019, respectively, and are recorded as a component of Fee Income on the Company's Summary of Operations.

Separate Accounts held by the Company represent funds for nonguaranteed group and individual variable annuity contracts, wherein the policyholder assumes substantially all the investment risks and rewards. The assets of these accounts are carried at market value.
