#### Note 1 - Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

The accompanying statutory-basis financial statements of American Maturity Life Insurance Company (the "Company" or "AML") have been prepared in conformity with statutory accounting practices prescribed or permitted by the State of Connecticut Insurance Department ("the Department"). The Department recognizes only statutory accounting practices prescribed or permitted by the State of Connecticut for determining and reporting the financial condition and results of operations of an insurance company and for determining solvency under the State of Connecticut Insurance Law. The National Association of Insurance Commissioners' Accounting Practices and Procedures Manual ("NAIC SAP") has been adopted as a component of prescribed practices by the State of Connecticut.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed by the Department is shown below:

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with the National Association of Insurance Commissioners ("NAIC") Annual Statement Instructions and NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported periods. Actual results could differ from those estimates. The most significant estimates include those used in determining the liability for aggregate reserves for future benefits. Although some variability is inherent in these estimates, management believes the amounts provided are adequate.

#### C. Accounting Policy

Annuity considerations are recognized as revenue when received.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- Short-term investments include investments whose remaining maturities, at the time of acquisition, are one year or less and are stated at amortized
  cost. Cash equivalents include investments whose remaining maturities, at time of acquisition, are 90 days or less and are stated at amortized cost.
  Cash equivalents also include money market instruments which are carried at fair value.
- 2. Other than loan-backed and structured securities, investments in unaffiliated bonds rated in NAIC classes 1 through 5 are carried at amortized cost, and unaffiliated bonds rated in NAIC class 6 are carried at the lower of amortized cost or fair value.
- 3. The Company has no investments in common stocks.
- 4. The Company has no investments in preferred stocks.
- 5. The Company has no investments in mortgage loans.
- 6. The Company has no investments in loan-backed bond and structured securities.
- 7. The Company has no investments in subsidiaries.
- 8. The Company has no investments in joint ventures, partnerships, and limited liability companies.
- 9. The Company has no investments in derivatives.
- The Company considers anticipated investment income as a factor in the premium deficiency calculation in accordance with SSAP No. 54, Individual
  and Group Accident and Health Contracts.
- 11. The Company does not have any accident and health policies.
- 12. The Company follows accounting for implementation costs incurred in a cloud computing arrangement that is a service contract in accordance with SSAP No. 16 Electronic Data Processing Equipment and Software. Implementation costs for service contracts are capitalized as nonoperating system software and as a nonadmitted asset and will be recognized as each component of the hosting arrangement is ready for its intended use. Hosting arrangements that are service contracts will be amortized over the lesser of the term of the hosting agreement or up to five years.
- 13. The Company has no pharmaceutical rebate receivables.
- 14. The Company writes down the book value of investments when declines in values are considered to be other than temporary impairments (OTTI).

#### Bonds:

The Company evaluates OTTI by conducting a quarterly analysis of bonds. The Company considers the following factors, where applicable depending on the type of securities, in the evaluation of whether a decline in value is other than temporary: (a) the likelihood that the Company will be able to collect all amounts due according to the contractual terms of the debt security; (b) the present value of the expected future cash flows of the security; (c) the characteristics, quality and value of the underlying collateral or issuer securing the position; (d) collateral structure; (e) the length of time and extent to which the fair value has been below amortized cost; (f) the financial condition and near-term prospects of the issuer; (g) adverse conditions related to the security or industry; (h) the rating of the security; (i) the Company's ability and intent to hold the investment for a period of time sufficient to allow for an anticipated recovery to amortized cost; and (j) other qualitative and quantitative factors in determining the existence of OTTI including, but not limited to, unrealized loss trend analysis and significant short-term changes in value.

#### D. Going Concern

The Company is not aware of any conditions or events which raise substantial doubts concerning the Company's ability to continue as a going concern.

#### Note 2 - Accounting Changes and Corrections of Errors

#### Accounting Changes

In 2024, the NAIC modified SSAP No. 15 – Debt and Holding Company Obligations to require additional disclosures related to unused commitments and lines of credit, disaggregated by short and long-term commitments. The Company adopted this guidance in 2024, however, it is not material to the Company.

In 2024, the NAIC modified SSAP No. 86 – Derivatives to require additional disclosures identifying where cash flows associated with derivative transactions are presented in the Statement of Cash Flow. The Company adopted this guidance in 2024, however, it is not material to the Company.

In 2023, the NAIC modified SSAP No. 34 – Investment Income Due and Accrued to require additional disclosures to capture gross, non-admitted and admitted amounts of accrued interest income and to separately identify the cumulative amount of paid-in-kind interest income included in the current principal balance. The guidance is effective December 31, 2023. The Company adopted this guidance in 2023, however, it is not material to the Company.

In 2023, the NAIC modified SSAP No. 43 - Loan-Backed and Structured Securities to add collateralized loan obligations (CLO) to the financial modeling guidance and clarify CLOs are not captured as legacy securities. This guidance is effective December 31, 2023 and will eventually result in CLOs no longer being eligible to use credit rating provider ratings to determine NAIC designation. The Company adopted this guidance in 2023, but effects of the guidance will not have an impact until CLO modeling methodology is implemented by the Securities Valuation Office.

In 2023, the NAIC modified several statutory statements to ensure consistency in the reporting of residual interests, irrespective of legal form. The changes incorporate the 2022 principles-based definition of residual interests, which are characterized as investments in structures backed by a discrete pool of collateral assets, where cash flows first provide principal and interest payments to debt holders, with remaining funds provided to holders of residual interests. The changes modify the following statutory statements: SSAP No. 30 – Common Stock, SSAP No. 32 – Preferred Stock, SSAP 43 – Loan-Backed and Structured Securities, and SSAP No. 48 – Joint Ventures, Partnerships and Limited Liability Companies. All changes are effective December 31, 2023. The Company adopted this guidance in 2023, however it is not material to the Company.

In 2023, the NAIC adopted INT 23-01 Net Negative (Disallowed) Interest Maintenance Reserve ("INT 23-01"). This interpretation prescribes optional statutory accounting guidance as an update to the existing guidance detailed in SSAP No. 7 – Asset Valuation Reserve and Interest Maintenance Reserve ("SSAP No. 7"), and allows the Company to partially admit negative (disallowed) interest maintenance reserve ("IMR") up to 10% of the Company's adjusted capital and surplus. The interpretation is effective immediately and lasts until December 31, 2025.

At December 31, 2024, the Company had \$0 of net negative (disallowed) IMR in aggregate which was admitted in the general account Statutory Statements of Assets. The Company has risk-based capital greater than the 300% authorized control level and the admittance of net negative (disallowed) IMR as identified above is not material in amount nor as a percentage to capital and surplus.

The fixed income investments generating IMR losses comply with the Company's management policies and there have not been deviations from such policies. The Company does not have investments in derivatives. The Company's asset sales that generated admitted negative IMR were not compelled by liquidity pressures.

Recently Issued Accounting Standards

In 2024, the NAIC modified SSAP No. 21 – Other Admitted Assets to prescribe a measurement framework for all residual interests regardless of legal form and provide guidance for admitting debt securities that do not qualify as bonds or asset-backed securities under principles-based guidance within SSAP 26 or SSAP 43, respectively. The Company is currently evaluating the impact of the changes. The Company will adopt the revised standards effective January 1, 2025; however, the Company does not expect the changes to have a material impact to the financial statements.

In 2023, the NAIC adopted revisions to several statutory statements to finalize guidance throughout applicable standards related to the updated definition of a bond. The changes incorporate a principles-based definition which categorizes bonds as either issuer credit obligations or asset-backed securities. The changes primarily modify the following statutory statements: SSAP No. 26 – Bonds and SSAP No. 43 – Loan-Backed and Structured Securities, and in conjunction with the changes modify the title of SSAP No. 43 to Asset-Backed Securities. The Company will adopt the revised standards effective January 1, 2025 and classify investments in accordance with the new principles; however, the Company does not expect the changes to have a material impact to statutory surplus.

#### Note 3 - Business Combinations and Goodwill

#### A. Statutory Purchase Method

The Company had no business combinations accounted for under the statutory purchase method.

#### B. Statutory Merger

The Company had no statutory mergers.

#### C. Assumption Reinsurance

#### E. Operating loss and tax credit carryforwards and protective tax deposits

- 1. At December 31, 2024, the Company had \$0 of net operating loss carryforwards and \$0 of foreign tax credit carryforwards.
- 2. The amount of federal income taxes incurred in the current year and each preceding year that will be available for recoupment in the event of future net losses are:

2024	\$ 1,710
2023	\$ _
2022	\$ _

3. The aggregate amounts of deposits reported as admitted assets under Section 6603 of the IRS Code was \$0 as of December 31, 2024.

#### F. Consolidated Federal Income Tax Return

1. The Company will file a stand alone federal income tax return.

#### 2. Federal Income Tax Allocation

As the Company files a stand alone federal tax return, intercompany tax allocation is not applicable.

#### Note 10 - Information Concerning Parent, Subsidiaries and Affiliates

- A&C. See Schedule Y.
- **B.** The Company has no reportable transactions with affiliates in 2024.
- D. The Company reported \$22,601 and \$27,066 as a payable to parents, subsidiaries and affiliates as of December 31, 2024 and 2023, respectively. Amounts are settled in accordance with terms of the agreements.
- E. Guarantees or undertakings including the Company and any affiliate or related party:

For all guarantees, see Note 14.A.2.

F. Management or expense allocation contracts involving affiliated companies:

Effective September 21, 2022, Talcott Resolution Life Insurance Company ("TL") entered into an intercompany liquidity agreement between several Talcott entities; including TR Re, Ltd. ("TR Re"), Talcott Life Re, Ltd ("TLR") and Talcott Life & Annuity Re, Ltd. ("TLAR"). TL may lend a total of \$500M in aggregate to these affiliates. TL may also borrow a total of \$1.5B consisting of \$500M from each of the aforementioned entities. Under the agreement, TLR, TLAR and TR Re cannot extend loans between one another.

Effective September 21, 2022, Talcott Resolution Life and Annuity Insurance Company ("TLA") entered into an intercompany liquidity agreement between several Talcott entities; TR Re, TLR and TLAR. TLA may lend a total of \$200M in aggregate to these affiliates. TLA may also borrow a total of \$600M consisting of \$200M from each of the aforementioned entities. Under the agreement, TLR, TLAR and TR Re cannot extend loans between one another.

Effective December 28, 2021, TL and certain of its affiliates, including but not limited to insurance companies (the "Talcott Companies"), entered into an Investment Management Agreement with Sixth Street Insurance Solutions, L.P. to provide investment management services with respect to certain assets.

Effective July 1, 2021, TL and certain of its affiliates, including but not limited to Talcott Companies, entered into a new Amended and Restated Services and Cost Allocation Agreement, which superseded the previous Cost Allocation Agreements and authorizes the affiliates and TL to obtain a variety of operating services from each other to conduct their day to day businesses and to provide fair and equitable compensation for their services. Expenses covered under the Agreement are allocated based on cost plus basis.

Effective June 1, 2018, TL and certain of its broker dealer affiliates, including Talcott Resolution Distribution Company ("TDC"), entered into a new Amended and Restated Service and Cost Allocation Agreement, which provides services to the entities for the purpose of conducting their day to day businesses.

Effective June 26, 2018, Hopmeadow Holdings, LP and its direct and indirect subsidiaries entered into a new Tax Allocation Agreement. On December 30, 2021, TR Re, Ltd., a new subsidiary of Hopmeadow Holdings, LP, was added to the agreement via joinder.

Effective June 1, 2018, TL entered into an Intercompany Liquidity Agreement (the "Liquidity Agreement") with TLA. The Agreement allows for short-term advances of funds between TL, TLA and certain TL subsidiaries who become parties to the Liquidity Agreement in the future. There are currently no advances outstanding.

Effective December 12, 2018, TL entered into an Intercompany Liquidity Agreement (the "TLI Liquidity Agreement") with Talcott Resolution Life, Inc. ("TLI"). The TLI Liquidity Agreement allows for short-term advances of funds between TL and TLI. There are currently no advances outstanding.

Effective July 14, 2012, TL entered into an administrative service agreement ( the "ASA") with Talcott Administrative Services Company LLC ("TASC", formerly known as Lombard International Administration Services Company, LLC). Under the ASA, TASC provides certain administrative services with respect to specified contracts and accounts.

Principal Underwriting Agreement between TDC, TL, and TLA as amended and restated effective July 17, 2007.

## Note 12 - Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

#### A - D Defined Renefit Plans

The Company has no direct plans.

#### E. Defined Contribution Plans

The Company has no direct plans.

#### F. Multiemployer Plans

The Company has no multiemployer plans.

#### G. Consolidated/Holding Company Plans

#### Talcott Deferred Compensation Plan

As of June 1, 2018, Talcott Life Insurance Company ("TL") adopted an investment and savings plan, the Talcott 401(k) Plan and a non-qualified savings plan, the Talcott Resolution Deferred Compensation Plan. Effective December 31, 2018, both plans were assigned to Talcott Resolution Life Inc., the Company's indirect parent. Substantially all U.S. employees of the Company are eligible to participate in the Talcott 401(k) Plan under which designated contributions can be invested in a variety of investments. Subject to IRS limits, the employee can contribute up to 90% of their eligible compensation. The Company's contributions include a non-elective contribution of 2% of eligible compensation and a dollar-for-dollar matching contribution of up to 6% of eligible compensation contributed by the employee each pay period.

The Talcott Resolution Deferred Compensation Plan is for a select group of management and provides an opportunity to defer compensation on a pre-tax basis and accumulate tax-deferred earnings. The Plan has a 6% matching contribution for eligible compensation earned in excess of the 401(a)(17) limit, currently \$350,000. Eligible compensation includes salary and bonuses and participants can defer up to 80% of their eligible pay. The Plan shall represent an unfunded, unsecured obligation of the company to provide deferred compensation. Any payments to a participant or other person hereunder shall be paid from the general assets of the company, and each participant shall have the status of an unsecured general creditor of the company with respect to any amounts payable under the Plan. The accrued liability for the company during 2024 and 2023 was immaterial.

#### Talcott Long-term Disability Plan

The Company participates in Talcott sponsored postemployment plans that provide for medical and salary replacement benefits for employees on long-term disability. The expenses allocated to the Company for long term disability were not material to the results of operations for the years ended December 31, 2024 and 2023.

#### Talcott Resolution Long-term Incentive Plan

In September, 2021, the Company adopted a new Long-term Cash Incentive Plan ("the Plan") to attract and retain executive and management level employees of the Company and its affiliates in support of the continued growth and long-term performance of the Company. U.S. employees in certain employment bands (generally executive and management level) are eligible to participate in the Plan. Targets vary by employment level. Awards are issued annually at the discretion of management, and vest in full on the third anniversary of the date of the grant, subject to the participant's continued employment with the Company. Any payments to a participant or other person hereunder shall be paid from the general assets of the company, and each participant shall have the status of an unsecured general creditor of the company with respect to any amounts payable under the Plan The expense accrued for the Company during 2024 and 2023 was immaterial.

#### H. Postemployment Benefits and Compensated Absences

Postemployment Benefits and Compensated Absences

#### Impact of Medicare Modernization Act on Postretirement Benefits (INT 04-17).

There was no impact from the Modernization Act on Medicare postretirement benefits (INT 04-17) to the Company.

#### Note 13 - Capital and Surplus, Shareholders' Dividend Restrictions and Quasi-Reorganizations

- 1. The Company has 15,000 shares of common capital stock authorized and 12,500 shares issues and outstanding. The par value of the stock is \$200.
- 2. The Company has no preferred shares authorized.
- 3. The maximum amount of dividends which can be paid to shareholders by Connecticut domiciled insurance companies, without prior approval of the Connecticut Insurance Commissioner (the "Commissioner"), is generally restricted to the greater of 10% of surplus as of the preceding December 31st or the net gain from operations after dividends to policyholders, federal income taxes and before realized capital gains or (losses) for the previous year. In addition, if any dividend exceeds the insurer's earned surplus, it requires the prior approval of the Commissioner. Dividends are paid as determined by the Board of Directors in accordance with state statutes and regulations, and are not cumulative. With respect to dividends to its parent TLI, the Company's dividend limitation under the holding company laws of Connecticut is \$0 in 2025. Because the Company's earned surplus is negative as of December 31, 2024, the Company will not be permitted to pay any dividends to TLI in 2025 without prior approval from the Commissioner until such time as earned surplus becomes positive.
- 4. The Company paid no dividends in 2024. After receiving permission from the Department, on December 29, 2023, AML paid a return of capital of \$36,000,000 to TL, the Company's parent at that time.
- 5. Within the limits of (3) above, there are no additional restrictions placed on the portion of Company profits that may be paid as ordinary dividends to stockholders.
- 6. No restrictions have been placed on the unassigned funds of the Company.
- 7. The Company is not organized as a mutual company.
- 8. No stock is being held by the Company for special purposes.
- 9. The Company had no changes in the balances of any special surplus funds from the prior period.
- 10. The portion of unassigned funds (surplus) represented or reduced by cumulative unrealized gains and (losses) is \$0.
- 11. The Company has no surplus notes outstanding.
- 12. The Company had no restatements due to quasi-reorganization.
- 13. The Company had no restatements due to quasi-reorganization.

#### Note 14 - Liabilities, Contingencies, and Assessments

#### A. Contingent Commitments

- 1. The Company has no claims related extra contractual obligation and bad faith losses stemming from lawsuits.
- 2. Detail of Other Contingent Commitments

Not applicable.

3. Summary of Detail in Note 14.A.2.

Not applicable.

#### B. Assessments

1. Liability and Related Asset

In all states, insurers licensed to transact certain classes of insurance are required to become members of a guaranty fund. In most states, in the event of the insolvency of an insurer writing any such class of insurance in the state, members of the funds are assessed to pay certain claims of the insolvent insurer. A particular state's fund assesses its members based on their respective written premiums in the state for the classes of insurance in which the insolvent insurer was engaged. Assessments are generally limited for any year to one or two percent of premiums written per year, depending on the state.

Under insurance guaranty fund laws in each state, the District of Columbia and Puerto Rico, insurers licensed to do business can be assessed by state insurance guaranty associations for certain obligations of insolvent insurance companies to policyholders and claimants. Part of the assessments paid by/refunded to the Company pursuant to these laws may be used as credits for a portion of the associated premium taxes. The Company paid no guaranty fund assessments in 2024 and 2023. The Company had a guaranty fund receivable of \$0 as of both December 31, 2024 and 2023.

#### Rollforward of Related Asset

The Company has no guaranty fund assets to rollforward.

3. Guaranty Fund Liabilities and Assets Related to Assessments from Insolvencies for Long-Term Care Contracts

The Company has no guaranty fund liabilities and assets related to assessments from insolvencies for long-term care contracts.

#### C. Gain Contingencies

The Company has no gain contingencies.

D. Claims related extra contractual obligations and bad faith losses stemming from lawsuits

The Company has no claims related extra contractual obligation and bad faith losses stemming from lawsuits.

#### E. Joint and Several Liabilities

The Company had no joint and several liabilities.

#### F. All Other Contingencies

The Company is or may become involved in various legal actions, some of which assert claims for substantial amounts. Management expects that the ultimate liability, if any, with respect to such lawsuits, after consideration of provisions made for estimated losses and costs of defense, will not be material to the financial condition of the Company.

#### Note 15 - Leases

- A. The Company has no material lease commitments. The Company reimburses its parent, TLI for rent of its Home Office Facility.
- B. Leasing is not a source of income for the Company.

#### Note 16- Information about Financial Instruments with Off-Balance Sheet Risk and Financial Instruments with Concentrations of Credit Risk

The Company has no financial instruments with off-balance sheet risk.

The Company aims to maintain a diversified investment portfolio including issuer, sector, and geographic stratification, and has established certain exposure limits, diversification standards and review procedures to mitigate credit risk. The Company is not exposed to any credit concentration risk of a single issuer, excluding U.S. Government securities, greater than 10% of the Company's capital and surplus as of December 31, 2024.

#### Note 17- Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

- A. The Company had no transfers of receivables reported as sales.
- B. The Company had no transfer or servicing of financial assets.

#### C Wash sales

The Company had no wash sales.

#### Note 18 - Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans

The Company had no gain or loss from uninsured Accident & Health plans or the uninsured portion of partially insured plans.

#### Note 19 - Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

The Company had no direct premiums written by managing general agents or third-party administrators.

#### Note 20 - Fair Value Measurements

#### A Fair Value Measurements

Fair value is determined based on the "exit price" notion which is defined as the price that would be received to sell an asset in the principal or most advantageous market for the asset in an orderly transaction between market participants. The Company's Separate Account assets are held at fair value.

The Company utilizes the services of third-party investment managers, including Hartford Investment Management Company ("HIMCO") and Sixth Street Insurance Solutions, L.P., that are registered investment advisers under the Investment Advisers Act of 1940. The Company's Investment Valuation Committee ("IVC"), a working group chaired by the Chief Financial Officer ("CFO") of the Talcott Financial Group Investments, LLC subsidiaries, oversees the investment activities of these investment managers and directs other investments to maximize economic value and generate the returns necessary to support the Company's various product obligations, within internally established objectives, guidelines and risk tolerances. The portfolio objectives and guidelines are developed, by the Company, based upon the asset/liability profile, including duration, convexity and other characteristics within specified risk tolerances. The risk tolerances considered include, but are not limited to, asset sector, credit issuer allocation limits, and maximum portfolio limits for below investment grade holdings. The Company attempts to minimize adverse impacts to the investment portfolio and the Company's results of operations from changes in economic conditions through asset diversification, asset allocation limits, and asset/liability duration matching and the use of derivatives. The following section applies the fair value hierarchy and disclosure requirements for the Company's Separate Account assets, and categorizes the inputs in the valuation techniques used to measure fair value into three broad Levels (Level 1, 2, or 3):

- Level 1 Unadjusted quoted prices for identical assets in active markets that the Company has the ability to access at the measurement date. Level 1 securities include open-ended mutual funds reported in Separate Account assets.
- Level 2 Observable inputs, other than quoted prices included in Level 1, for the asset or prices for similar assets. Certain short-term investments reported in Separate Account assets are model priced by vendors using observable inputs and are classified within Level 2.
- Level 3 Valuations that are derived from techniques in which one or more of the significant inputs are unobservable (including assumptions about risk). Because Level 3 fair values, by their nature, contain one or more significant unobservable inputs as there is little or no observable market for these assets and liabilities, considerable judgment is used to determine the Level 3 fair values. Level 3 fair values represent the Company's best estimate of amounts that could be realized in a current market exchange absent actual market exchanges.

In many situations, inputs used to measure the fair value of an asset or liability position may fall into different levels of the fair value hierarchy. In these situations, the Company's investment managers will determine the level in which the fair value falls based upon the lowest level input that is significant to the determination of the fair value. In most cases, both observable (e.g., changes in interest rates) and unobservable (e.g. changes in risk assumptions) inputs are used in determination of fair values that the Company's investment managers has classified within Level 3. Consequently, these values and the related gains and losses are based upon both observable and unobservable inputs.

1 The following table presents assets carried at fair value by hierarchy level:

	December 31, 2024													
	(Amounts in thousands)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total									
a.	Assets accounted for at fair value													
	Separate Account assets	\$ 14,405	- \$	\$	\$ 14,405									
	Total assets accounted for at fair value	\$ 14,405	-	\$	\$ 14,405									
b.	Liabilities accounted for at fair value													
	N/A	_	-	\$	\$									
	Total liabilities accounted for at fair value	\$ —	-	\$	\$									

Fair values and changes in the fair values of Separate Account assets generally accrue directly to the policyholders and are not included in the Company's revenues and expenses or surplus.

#### Valuation Techniques, Procedures and Controls

The Company determines the fair values of certain financial assets and liabilities based on quoted market prices where available and where prices represent reasonable estimates of fair value. The Company also determines fair values based on future cash flows discounted at the appropriate current market rate. Fair values reflect adjustments for counterparty credit quality, the Company's default spreads, liquidity and, where appropriate, risk margins on unobservable parameters.

The fair value process is monitored by the respective Valuation Committees of the Company's investment managers, which are comprised of senior management that meets at least quarterly. The purpose of the committee is to oversee the pricing policy and procedures by ensuring objective and reliable valuation practices and pricing of financial instruments as well as addressing valuation issues and approving changes to valuation methodologies and pricing sources.

In addition, the IVC is responsible for the approval and monitoring of the Valuation Policy of the Company as well as the adjudication of any valuation disputes thereunder. The Valuation Policy addresses valuation of all financial instruments held in the general account and guaranteed separate accounts of the Company, including all derivative positions. The IVC meets regularly, and its members include a cross-functional group of senior management as well as various investment, accounting, finance, and risk management professionals.

The Company also has an enterprise-wide Operational Risk Management function with Enterprise Risk Management ("ERM") which is responsible for establishing, maintaining and communicating the framework, principles and guidelines of the Company's operational risk management program. The Enterprise Model Oversight Working Group ensures compliance with the ERM framework by providing an independent review of the suitability, characteristics and reliability of model inputs as well as an analysis of significant changes to current models.

#### **Bonds and Stocks**

The fair values of bonds and stocks in an active and orderly market (e.g., not distressed or forced liquidation) are determined by the Company's investment managers using a "waterfall" approach utilizing the following pricing sources: quoted prices for identical assets or liabilities, prices from third-party pricing services, independent broker quotations, or internal matrix pricing processes. Typical inputs used by these pricing sources include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, and/or estimated cash flows, prepayment speeds, and default rates. Most bonds do not trade daily. Based on the typical trading volumes and the lack of quoted market prices for bonds, third-party pricing services utilize matrix pricing to derive security prices. Matrix pricing relies on securities' relationships to other benchmark quoted securities, which trade more frequently. Pricing services utilize recently reported trades of identical or similar securities making adjustments through the reporting date based on the preceding outlined available market observable information. If there are no recently reported trades, the third-party pricing services may develop a security price using expected future cash flows based upon collateral performance and discounted at an estimated market rate. Both matrix pricing and discounted cash flow techniques develop prices by factoring in the time value for cash flows and risk, including liquidity and credit.

Prices from third-party pricing services may be unavailable for securities that are rarely traded or are traded only in privately negotiated transactions. As a result, certain securities are priced via independent broker quotations which utilize inputs that may be difficult to corroborate with observable market based data. Additionally, the majority of these independent broker quotations are non-binding.

The Company's investment managers utilize an internally developed matrix pricing process for private placement securities for which the Company is unable to obtain a price from a third-party pricing service. The process is similar to the third-party pricing services. The Company's investment managers develop credit spreads each month using market based data for public securities adjusted for credit spread differentials between public and private securities which are obtained from a survey of multiple private placement brokers. The credit spreads determined through this survey approach are based upon the issuer's financial strength and term to maturity, utilizing independent public security index and trade information and adjusting for the non-public nature of the securities. Credit spreads combined with risk-free rates are applied to contractual cash flows to develop a price.

The Company's investment managers perform ongoing analyses of the prices and credit spreads received from third parties to ensure that the prices represent a reasonable estimate of the fair value. In addition, the Company's investment managers ensure that prices received from independent brokers represent a reasonable estimate of fair value through the use of internal and external cash flow models utilizing spreads, and when available, market indices. As a result of these analyses, if the Company's investment managers determine that there is a more appropriate fair value based upon the available market data, the price received from the third party is adjusted accordingly and approved by the Valuation Committee of the Company's investment managers.

The Company's investment managers conduct other specific monitoring controls around pricing. Daily, weekly and monthly analyses identify price changes over predetermined thresholds for bonds and equity securities. Monthly analyses identify prices that have not changed, and missing prices. Also on a monthly basis, a second source validation is performed on most sectors. Analyses are conducted by a dedicated pricing unit that follows up with trading and investment sector professionals and challenges prices with vendors when the estimated assumptions used differs from what the Company's investment managers feel a market participant would use. Examples of other procedures performed include, but are not limited to, initial and ongoing review of third-party pricing services' methodologies, review of pricing statistics and trends and back testing recent trades.

The Company's investment managers have analyzed the third-party pricing services' valuation methodologies and related inputs, and has also evaluated the various types of securities in its investment portfolio to determine an appropriate fair value hierarchy level based upon trading activity and the observability of market inputs. Most prices provided by third-party pricing services are classified into Level 2 because the inputs used in pricing the securities are observable. Due to the lack of transparency in the process that brokers use to develop prices, most valuations that are based on brokers' prices are classified as Level 3. Some valuations may be classified as Level 2 if the price can be corroborated with observable market data.

#### Valuation Inputs for Separate Account Assets

Separate Account assets are primarily invested in mutual funds but also have investments in bonds and stocks. For Level 1 investments, valuations are based on observable inputs that reflect quoted prices for identical assets in active markets that the Company has the ability to access at the measurement date.

For the Separate Accounts' Level 2 bond securities, typical inputs used by pricing techniques include, but are not limited to, benchmark yields, reported trades, broker/ dealer quotes, issuer spreads, benchmark securities, bids, offers, and/or estimated cash flows, prepayment speeds, and default rates.

#### B. Other Fair Value Disclosures

Not applicable.

#### C. Fair Values for All Financial Instruments by Levels 1, 2 and 3

The tables below reflect the fair values and admitted values of all admitted assets and liabilities that are financial instruments excluding those accounted for under the equity method (joint ventures and partnerships). The fair values are also categorized into the three-level fair value hierarchy as described in Note 20A.

(Amounts in thousands)		December 31, 2024

#### Note 22 - Events Subsequent

The Company had no other material subsequent events through the filing date of February 26, 2024.

#### Note 23 - Reinsurance

#### A. Ceded Reinsurance Report

#### Section 1 - General Interrogatories

- a. There are no reinsurers listed in Schedule S as non-affiliated, owned in excess of 10% or controlled, either directly or indirectly, by the Company or by any representative, officer, trustee, or director of the Company.
- b. No policies issued by the Company have been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) which is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor of an insured or any other person not primarily engaged in the insurance business.

#### Section 2 - Ceded Reinsurance Report - Part A

- 1. The Company has no reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits.
- 2. The Company has no reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts which, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsurance policies.

#### Section 3 - Ceded Reinsurance Report - Part B

- 1. The reduction in surplus due to a hypothetical termination of all reinsurance agreements would be highly dependent on the facts and circumstances of such termination. The impact of such amount as of December 31, 2024 (excluding those agreements reflected in Section 2 above) is estimated to be \$0 prior to consideration of potential replacement reinsurance facilities.
- 2. There have been no new agreements executed or existing agreements amended, since January 1 of the year of this statement, to include policies or contracts which were in-force or which had existing reserves established by the Company as of the effective date of the agreement.

#### B. Uncollectible Reinsurance

The Company did not write off any uncollectible reinsurance during the year.

#### C. Commutation of Ceded Reinsurance

The Company has not commuted any ceded reinsurance during the year.

## D. Certified Reinsurer Rating Downgraded or Status Subject to Revocation

Not applicable.

- E. The Company has no variable annuity reinsurance contracts with an affiliated captive reinsurer.
- F. The Company has no reinsurance agreements with an affiliated captive reinsurer.
- G. The Company does not utilize captives to assume reserves for ceding entities.

#### H. Reinsurance Credit

- The Company has no reinsurance contracts (or multiple contracts with the same reinsurer or its affiliates) subject to A-791 that include a provision, which limits the reinsurer's assumption of significant risks identified as in A-791.
- 2. The Company has no reinsurance contracts (or multiple contracts with the same reinsurer or its affiliates) not subject to A-791, for which reinsurance accounting was applied that include a provision that limits the reinsurer's assumption of risk.
- The Company has no reinsurance contracts that contain features which result in delays in payment in form or in fact.
- The Company has no reinsurance accounting credits for contracts not subject to A-791 and not yearly renewable term, which meet the risk transfer requirements
  of SSAP No. 61R.
- 5. The Company has not ceded any risk which is not subject to A-791 and not yearly renewable term reinsurance, under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement which is either: (i) accounted for as reinsurance under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP") or (ii) accounted for as reinsurance under GAAP and a deposit under SAP.
- Not applicable.

#### Note 24 - Retrospectively Rated Contracts & Contracts Subject to Redetermination

- A.-C. The Company has no retrospectively rated contracts.
- **D.** The Company had no medical loss ratio rebates.
- E. The Company had no accident and health insurance premiums that are subject to the Affordable Care Act risk-sharing provisions.

#### Note 25 - Changes in Incurred Losses and Loss Adjustment Expenses

The Company had no change to incurred losses or loss adjustment expenses.

#### Note 26 - Intercompany Pooling Arrangements

The Company has no intercompany pooling arrangements.

#### Note 27 - Structured Settlements

The Company has not purchased any structured settlements.

#### Note 28 - Health Care Receivables

The Company has no health care receivables.

#### Note 29 - Participating Policies

The Company has no participating policies.

#### Note 30 - Premium Deficiency Reserves

The Company had no premium deficiency reserves.

#### Note 31 - Reserves for Life Contracts and Deposit-Type Contracts

- 1. Not applicable.
- 2. Not applicable.
- 3. Not applicable.
- 4. Tabular interest, tabular less actual reserves released and tabular cost are determined by formula as described in the NAIC SAP.
- 5. Tabular interest for contracts not involving life contingencies represents the net amount credited taking into account increments of premiums and annuity considerations and decrements of benefits, withdrawals, loads and policy charges.
- 6. Not applicable.

#### Note 32 - Analysis of Annuity Actuarial Reserves and Deposit Liabilities by Withdrawal Characteristics

#### Note 33 - Analysis of Life Actuarial Reserves by Withdrawal Characteristics

The Company has no life actuarial reserves.

#### Note 34 - Premium and Annuity Considerations Deferred and Uncollected

The Company has no premium and annuity considerations deferred and uncollected.

#### Note 35 - Separate Accounts

#### A. Separate Account Activity

The Company maintained Separate Account assets totaling \$14,405,018 and \$13,807,544 at December 31, 2024 and 2023, respectively. The Company utilizes
Separate Accounts to record and account for assets and liabilities for particular lines of business and/or transactions. For the current reporting year, the
Company reported assets and liabilities from group and individual variable annuity product lines in Separate Accounts.

In accordance with the domiciliary state procedures for approving items within the Separate Account, the Separate Account classification is supported by state statute

2. Some assets are considered legally insulated whereas others are not legally insulated from the General Account.

As of December 31, 2024 and 2023, the Company Separate Account statement included legally insulated assets of \$14,251,040 and 13,658,236, respectively. The assets legally insulated from the General Account are attributed to the following product lines as of:

	December 31, 2024			December 31, 2023				
Product Lines		Legally Insulated Assets	(	Assets (not legally insulated)		Legally Insulated Assets		Assets (not legally insulated)
Group variable annuities	\$	14,128,120	\$	_	\$	13,581,376	\$	-
Individual variable annuities		122,920		_		76,860		_
Modified Guarantee Contracts		_		153,978				149,309
Total	\$	14,251,040	\$	153,978	\$	13,658,236	\$	149,309

3. In accordance with the product lines recorded within the Separate Account statement, some Separate Account liabilities are guaranteed by the General Account, wherein the Company contractually guarantees either a minimum return or account value to the policyholder.

Separate Account liabilities are determined in accordance with prescribed actuarial methodologies, which approximate the market value less applicable surrender charges. The resulting surplus, net of reinsurance, is recorded in the General Account Summary of Operations as a component of Net Transfers to or (from) Separate Accounts.

For the year ended December 31, 2024, the General Account of the Company had a maximum guarantee for Separate Account liabilities of \$0. To compensate the General Account for the risk taken, the Separate Account has paid risk charges as follows for the past five years:

a.	2024	\$ —
b.	2023	\$ -
C.	2022	\$ —
d.	2020	\$ —
e.	2019	\$ —

As of December 31, 2024, the General Account of the Company had paid no Separate Account guarantees. The total Separate Account guarantees paid by the General Account for the preceding four years ending December 31, 2024, 2023, 2022, and 2020 were \$0.

4. The Company does not engage in securities lending transactions within the Separate Accounts.

#### B. General Nature and Characteristics of Separate Accounts Business

Investment income (including investment gains and losses) and interest credited to policyholders on Separate Account assets are not separately reflected in the Summary of Operations.

Separate Account fees, net of minimum guarantees, were \$123,077 and \$110,357 for the years ended December 31, 2024 and 2023, respectively, and are recorded as a component of Fee Income on the Company's Summary of Operations.

Separate Accounts held by the Company represent funds for nonguaranteed group and individual variable annuity contracts, wherein the policyholder assumes substantially all the investment risks and rewards. The assets of these accounts are carried at market value.

An analysis of the Separate Account reserves as of December 31, 2024 is as follows:
