The following section categorizes the inputs in the valuation techniques used to measure fair value into three broad Levels (Level 1, 2, or 3):

For Level 1 investments, valuations are based on quoted prices for identical assets in active markets that the Company has the ability to access at the measurement

For the Company's Level 2 and 3 debt securities, typical inputs used by pricing techniques include, but are not limited to, benchmark yields, reported trades, broker/ dealer quotes, issuer spreads, benchmark securities, bids, offers, and/or estimated cash flows, prepayment speeds, and default rates

A description of additional inputs used in the Company's Level 2 and Level 3 measurements is included in the following discussion:

The fair values of most of the Company's Level 2 investments are determined by management after considering prices received from third-party pricing services. These investments include most bonds.

NOTES TO FINANCIAL STATEMENTS

The Company had no securities classified as Level 3 in 2020 and 2019. Level 3

Note 21 - Other Items

C. Other Disclosures

The continuing impact of the outbreak of the novel coronavirus ("COVID-19") and the related disruption to the worldwide economy are affecting companies across all industries. Worldwide health emergency measures to combat the spread of the virus have caused severe disruption resulting in an economic slowdown. The duration and impact of the ongoing COVID-19 public health crises on the financial markets, overall economy and our operations are still uncertain, as is the efficacy of government and central bank interventions. Additionally, further actions regulators may take in response to the COVID-19 public health crisis could impact financial markets and our operations. At this time, the Company is not able to reliably estimate the length and severity of the COVID-19 public health crises and, as such, cannot fully quantify its impact on the financial results, liquidity and capital resources of the Company and its operations in future periods. Relief granted to customers to date has not had a material impact on the Company's financial condition or results of operations.
