Note 1 - Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory-basis financial statements of American Maturity Life Insurance Company (the "Company" or "AML") have been prepared in conformity with statutory accounting practices prescribed or permitted by the State of Connecticut Insurance Department ("the Department"). The Department recognizes only statutory accounting practices prescribed or permitted by the State of Connecticut for determining and reporting the financial condition and results of operations of an insurance company and for determining solvency under the State of Connecticut Insurance Law. The National Association of Insurance Commissioners' Accounting Practices and Procedures Manual ("NAIC SAP") has been adopted as a component of prescribed practices by the State of Connecticut.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed by the Department is shown below:

	SSAP#	F/S Page	F/S Line #	2023	2022
Net income					
1. AML state basis (Page 4, Line 35, Columns 1 & 3)	XXX	XXX	XXX	\$ 938,769	\$ 576,488
2. State prescribed practices that are an (increase)/decrease from NAIC SAP				_	_
3. State permitted practices that are an (increase)/decrease from NAIC SAP				_	_
4. Net SAP (1-2-3=4)	XXX	XXX	XXX	\$ 938,769	\$ 576,488
Surplus					
5. AML state basis (Page 3, Line 38, Columns 1 & 2)	XXX	XXX	XXX	\$ 52,194,575	\$ 51,312,281
6. State prescribed practices that are an (increase)/decrease from NAIC SAP				_	_
7. State permitted practices that are an (increase)/decrease from NAIC SAP				_	_
8. NAIC SAP (5-6-7=8)	XXX	XXX	XXX	\$ 52,194,575	\$ 51,312,281

C. Accounting Policy

- 2. The Company had no SVO identified investments in exchange traded funds or bond mutual funds that qualifies for bond accounting treatment.
- The Company has no investments in loan-backed bond and structured securities.

D. Going Concern

The Company is not aware of any conditions or events which raise substantial doubts concerning the Company's ability to continue as a going concern.

Note 2 - Accounting Changes and Corrections of Errors

Accounting Changes

In 2023, the NAIC adopted INT 23-01 Net Negative (Disallowed) Interest Maintenance Reserve ("INT 23-01"). This interpretation prescribes optional statutory accounting guidance as an update to the existing guidance detailed in SSAP No. 7 – Asset Valuation Reserve and Interest Maintenance Reserve ("SSAP No. 7"), and allows the Company to partially admit negative (disallowed) interest maintenance reserve ("IMR") up to 10% of the Company's adjusted capital and surplus. The interpretation is effective immediately and lasts until December 31, 2025.

At September 30, 2023, the Company had \$4,823 of net negative (disallowed) IMR in aggregate which was admitted in the general account Statutory Statements of Assets. The Company has risk-based capital greater than the 300% authorized control level and the admittance of net negative (disallowed) IMR as identified above is not material in amount nor as a percentage to capital and surplus.

The fixed income investments generating IMR losses comply with the Company's management policies and there have not been deviations from such policies. The Company does not have investments in derivatives. The Company's asset sales that generated admitted negative IMR were not compelled by liquidity pressures.

Note 3 - Business Combinations and Goodwill

No significant change.

Note 4 - Discontinued Operations

No significant change.

Note 5 - Investments

D. Loan-Backed Securities

The Company has no investments in loan-backed bonds and structured securities as of September 30, 2023.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

- 3. Collateral Received
 - b. The Company did not accept collateral that is permitted by contract or custom to sell or repledge as of September 30, 2023.

F. Repurchase Agreements Transactions Accounted for as Secured Borrowing

The Company had no repurchase agreements transactions accounted for as secured borrowing transactions.

G. Reverse Repurchase Agreements Transactions Accounted for as Secured Borrowing

The Company had no reverse repurchase agreements transactions accounted for as secured borrowing transactions.

H. Repurchase Agreements Transactions Accounted for as a Sale

The Company had no repurchase agreements transactions accounted for as a sale transaction.

I. Reverse Repurchase Agreements Transactions Accounted for as a Sale

The Company had no reverse repurchase agreements transactions accounted for as a sale transaction.

M. Working Capital Finance Investments

The Company had no working capital finance investments.

N. Offsetting and Netting of Assets and Liabilities

The Company had no offsetting and netting of assets and liabilities.

R. Share of Cash Pool by Asset type

The Company did not participate in a short term investment pool as of September 30, 2023.

Note 6 - Joint Ventures, Partnerships and Limited Liability Companies

No significant change.

- C. The Company had no wash sales.

Note 18 - Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans

No significant change.

Note 19 - Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

No significant change.

Note 20 - Fair Value Measurements

A. Fair Value Measurements

Fair value is determined based on the "exit price" notion which is defined as the price that would be received to sell an asset in the principal or most advantageous market for the asset in an orderly transaction between market participants. The Company's Separate Account assets are held at fair value.

The Company's investment managers Hartford Investment Management Company ("HIMCO") and Sixth Street Insurance Solutions, L.P. (both registered investment advisers under the Investment Advisers Act of 1940), with oversight by the Company's Investment Management Department and its Enterprise Finance, Investments, and Capital Working Group ("EFICWG"), a working group co-chaired by the Chief Financial Officers ("CFO") of the Talcott Financial Group Investments, LLC subsidiaries, manage the Company's investment portfolios to maximize economic value and generate the returns necessary to support the Company's various product obligations, within internally established objectives, guidelines and risk tolerances. The portfolio objectives and guidelines are developed, by the Company, based upon the asset/liability profile, including duration, convexity and other characteristics within specified risk tolerances. The risk tolerances considered include, but are not limited to, asset sector, credit issuer allocation limits, and maximum portfolio limits for below investment grade holdings. The Company attempts to minimize adverse impacts to the investment portfolio and the Company's results of operations from changes in economic conditions through asset diversification, asset allocation limits, and asset/liability duration matching and the use of derivatives. The following section applies the fair value hierarchy and disclosure requirements for the Company's Separate Account assets. and categorizes the inputs in the valuation techniques used to measure fair value into three broad Levels (Level 1, 2, or 3):

- Level 1 Unadjusted quoted prices for identical assets in active markets that the Company has the ability to access at the measurement date. Level 1 securities include open-ended mutual funds reported in Separate Account assets.
- Level 2 Observable inputs, other than quoted prices included in Level 1, for the asset or prices for similar assets. Certain short-term investments reported in Separate Account assets are model priced by vendors using observable inputs and are classified within Level 2.
- Level 3 Valuations that are derived from techniques in which one or more of the significant inputs are unobservable (including assumptions about risk). Because Level 3 fair values, by their nature, contain one or more significant unobservable inputs as there is little or no observable market for these assets and liabilities, considerable judgment is used to determine the Level 3 fair values. Level 3 fair values represent the Company's best estimate of amounts that could be realized in a current market exchange absent actual market exchanges.

In many situations, inputs used to measure the fair value of an asset or liability position may fall into different levels of the fair value hierarchy. In these situations, the Company's investment manager will determine the level in which the fair value falls based upon the lowest level input that is significant to the determination of the fair value. In most cases, both observable (e.g., changes in interest rates) and unobservable (e.g. changes in risk assumptions) inputs are used in determination of fair values that the Company's investment manager has classified within Level 3. Consequently, these values and the related gains and losses are based upon both observable and unobservable inputs.

1. The following table presents assets carried at fair value by hierarchy level:

			September 30, 2	2023			
	(Amounts in thousands)	Act	uoted Prices in tive Markets for entical Assets (Level 1)	Significant Observable Inputs (Level 2)		Significant Unobservable Inputs (Level 3)	Total
a.	Assets accounted for at fair value				Γ		
	Separate Account assets	\$	12,645	\$	\$	_	\$ 12,645
	Total assets accounted for at fair value	\$	12,645	\$ -	\$	_	\$ 12,645
b.	Liabilities accounted for at fair value					-	
	N/A	\$	_	\$	\$	_	\$ _
	Total liabilities accounted for at fair value	\$	_	\$ —	\$	_	\$ _

Fair values and changes in the fair values of Separate Account assets generally accrue directly to the policyholders and are not included in the Company's revenues and expenses or surplus.

Valuation Techniques, Procedures and Controls

The Company determines the fair values of certain financial assets and liabilities based on quoted market prices where available and where prices represent reasonable estimates of fair value. The Company also determines fair values based on future cash flows discounted at the appropriate current market rate. Fair values reflect adjustments for counterparty credit quality, the Company's default spreads, liquidity and, where appropriate, risk margins on unobservable parameters.

The fair value process is monitored by the respective Valuation Committees of the Company's investment managers, which are comprised of senior management that meets at least quarterly. The purpose of the committee is to oversee the pricing policy and procedures by ensuring objective and reliable valuation practices and pricing of financial instruments as well as addressing valuation issues and approving changes to valuation methodologies and pricing sources.

In addition, the EFICWG is responsible for the approval and monitoring of the Valuation Policy of the Company as well as the adjudication of any valuation disputes thereunder. The Valuation Policy addresses valuation of all financial instruments held in the general account and guaranteed separate accounts of the Company, including all derivative positions. The EFICWG meets regularly, and its members include a cross-functional group of senior management as well as various investment, accounting, finance, and risk management professionals.

The Company also has an enterprise-wide Operational Risk Management function with Enterprise Risk Management ("ERM") which is responsible for establishing, maintaining and communicating the framework, principles and guidelines of the Company's operational risk management program. The Enterprise Model Oversight Working Group ensures compliance with the ERM framework by providing an independent review of the suitability, characteristics and reliability of model inputs as well as an analysis of significant changes to current models.

Bonds and Stocks

The fair values of bonds and stocks in an active and orderly market (e.g., not distressed or forced liquidation) are determined by the Company's investment managers using a "waterfall" approach utilizing the following pricing sources: quoted prices for identical assets or liabilities, prices from third-party pricing services, independent broker quotations, or internal matrix pricing processes. Typical inputs used by these pricing sources include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, and/or estimated cash flows, prepayment speeds, and default rates. Most bonds do not trade daily. Based on the typical trading volumes and the lack of quoted market prices for bonds, third-party pricing services utilize matrix pricing to derive security prices. Matrix pricing relies on securities' relationships to other benchmark quoted securities, which trade more frequently. Pricing services utilize recently reported trades of identical or similar securities making adjustments through the reporting date based on the preceding outlined available market observable information. If there are no recently reported trades, the third-party pricing services may develop a security price using expected future cash flows based upon collateral performance and discounted at an estimated market rate. Both matrix pricing and discounted cash flow techniques develop prices by factoring in the time value for cash flows and risk, including liquidity and credit.

Prices from third-party pricing services may be unavailable for securities that are rarely traded or are traded only in privately negotiated transactions. As a result, certain securities are priced via independent broker quotations which utilize inputs that may be difficult to corroborate with observable market based data. Additionally, the majority of these independent broker quotations are non-binding.

The Company's investment managers utilize an internally developed matrix pricing process for private placement securities for which the Company is unable to obtain a price from a third-party pricing services. The Company's investment managers develop credit spreads each month using market based data for public securities adjusted for credit spread differentials between public and private securities which are obtained from a survey of multiple private placement brokers. The credit spreads determined through this survey approach are based upon the issuer's financial strength and term to maturity,

utilizing independent public security index and trade information and adjusting for the non-public nature of the securities. Credit spreads combined with risk-free rates are applied to contractual cash flows to develop a price.

The Company's investment managers perform ongoing analyses of the prices and credit spreads received from third parties to ensure that the prices represent a reasonable estimate of the fair value. In addition, the Company's investment managers ensure that prices received from independent brokers represent a reasonable estimate of fair value through the use of internal and external cash flow models utilizing spreads, and when available, market indices. As a result of these analyses, if the Company's investment managers determine that there is a more appropriate fair value based upon the available market data, the price received from the third party is adjusted accordingly and approved by the Valuation Committee of the Company's investment managers.

The Company's investment managers conduct other specific monitoring controls around pricing. Daily, weekly and monthly analyses identify price changes over predetermined thresholds for bonds and equity securities. Monthly analyses identify prices that have not changed, and missing prices. Also on a monthly basis, a second source validation is performed on most sectors. Analyses are conducted by a dedicated pricing unit that follows up with trading and investment sector professionals and challenges prices with vendors when the estimated assumptions used differs from what the Company's investment managers feel a market participant would use. Examples of other procedures performed include, but are not limited to, initial and ongoing review of third-party pricing services' methodologies, review of pricing statistics and trends and back testing recent trades.

The Company's investment managers have analyzed the third-party pricing services' valuation methodologies and related inputs, and has also evaluated the various types of securities in its investment portfolio to determine an appropriate fair value hierarchy level based upon trading activity and the observability of market inputs. Most prices provided by third-party pricing services are classified into Level 2 because the inputs used in pricing the securities are observable. Due to the lack of transparency in the process that brokers use to develop prices, most valuations that are based on brokers' prices are classified as Level 3. Some valuations may be classified as Level 2 if the price can be corroborated with observable market data.

Valuation Inputs for Separate Account Assets

Separate Account assets are primarily invested in mutual funds but also have investments in bonds and stocks. For Level 1 investments, valuations are based on observable inputs that reflect quoted prices for identical assets in active markets that the Company has the ability to access at the measurement date.

For the Separate Accounts' Level 2 bond securities, typical inputs used by pricing techniques include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, and/or estimated cash flows, prepayment speeds, and default rates.

B. Other Fair Value Disclosures

Not applicable.

C. Fair Values for All Financial Instruments by Levels 1, 2 and 3

The tables below reflect the fair values and admitted values of all admitted assets and liabilities that are financial instruments excluding those accounted for under the equity method (joint ventures and partnerships). The fair values are also categorized into the three-level fair value hierarchy as described in Note 20A.

(Amounts in thousands)		•				5	Sept	tember 30, 202	3				•	, and the second

GENERAL INTERROGATORIES

PART 2 - LIFE AND ACCIDENT AND HEALTH COMPANIES/FRATERNAL BENEFIT SOCIETIES

Life and	Accident Health Companies/Fraternal Benefit Societies: Report the statement value of mortgage loans at the end of this reporting period for the following categories:	1 Amount
	1.1 Long-Term Mortgages In Good Standing	Amount
	1.11 Farm Mortgages	\$
	1.12 Residential Mortgages	\$
	1.13 Commercial Mortgages	\$
	1.14 Total Mortgages in Good Standing	\$
	1.2 Long-Term Mortgages In Good Standing with Restructured Terms	
	1.21 Total Mortgages in Good Standing with Restructured Terms	\$
	1.3 Long-Term Mortgage Loans Upon which Interest is Overdue more than Three Months	
	1.31 Farm Mortgages	\$
	1.32 Residential Mortgages	\$
	1.33 Commercial Mortgages	\$
	1.34 Total Mortgages with Interest Overdue more than Three Months	\$
	1.4 Long-Term Mortgage Loans in Process of Foreclosure	
	1.41 Farm Mortgages	\$
	1.42 Residential Mortgages	\$
	1.43 Commercial Mortgages	\$
	1.44 Total Mortgages in Process of Foreclosure	\$
1.5	Total Mortgage Loans (Lines 1.14 + 1.21 + 1.34 + 1.44) (Page 2, Column 3, Lines 3.1 + 3.2)	\$
1.6	Long-Term Mortgages Foreclosed, Properties Transferred to Real Estate in Current Quarter	
	1.61 Farm Mortgages	\$
	1.62 Residential Mortgages	\$
	1.63 Commercial Mortgages	\$
	1.64 Total Mortgages Foreclosed and Transferred to Real Estate	\$
2.	Operating Percentages:	
	2.1 A&H loss percent	%
	2.2 A&H cost containment percent	
	2.3 A&H expense percent excluding cost containment expenses	
3.1	Do you act as a custodian for health savings accounts?	Yes [] No [X]
3.2	If yes, please provide the amount of custodial funds held as of the reporting date	
3.3	Do you act as an administrator for health savings accounts?	
3.4	If yes, please provide the balance of the funds administered as of the reporting date	
4.	Is the reporting entity licensed or chartered, registered, qualified, eligible or writing business in at least two states?	
4.1	If no, does the reporting entity assume reinsurance business that covers risks residing in at least one state other than the state of	
	domicile of the reporting entity?	Yes [] No []
Fratern 5.1	al Benefit Societies Only: In all cases where the reporting entity has assumed accident and health risks from another company, provisions should be made in this statement on account of such reinsurances for reserve equal to that which the original company would have been required to establish had it retained the risks. Has this been done?	Yes [] No [] N/A []
5.2	If no, explain:	
6.1	Does the reporting entity have outstanding assessments in the form of liens against policy benefits that have increased surplus?	
6.2	If yes, what is the date(s) of the original lien and the total outstanding balance of liens that remain in surplus?

Asterisk	Explanation Explanation

SUPPLEMENTAL EXHIBITS AND SCHEDULES INTERROGATORIES

The following supplemental reports are required to be filed as part of your statement filing. However, in the event that your company does not transact the type of business for which the special report must be filed, your response of NO to the specific interrogatory will be accepted in lieu of filing a "NONE" report and a bar code will be printed below. If the supplement is required of your company but is not being filed for whatever reason enter SEE EXPLANATION and provide an explanation following the interrogatory questions.

		Response
1.	Will the Trusteed Surplus Statement be filed with the state of domicile and the NAIC with this statement?	NO
2.	·	***
	Will the Medicare Part D Coverage Supplement be filed with the state of domicile and the NAIC with this statement?	NO
3.	Will the Reasonableness of Assumptions Certification required by Actuarial Guideline XXXV be filed with the state of domicile and electronically with the NAIC?	NO
4.	Will the Reasonableness and Consistency of Assumptions Certification required by Actuarial Guideline XXXV be filed with the state of domicile and electronically with the NAIC?	NO
5.	Will the Reasonableness of Assumptions Certification for Implied Guaranteed Rate Method required by Actuarial Guideline XXXVI be filed with the state of domicile and electronically with the NAIC?	NO
6.	Will the Reasonableness and Consistency of Assumptions Certification required by Actuarial Guideline XXXVI (Updated Average Market Value) be filed with the state of domicile and electronically with the NAIC?	NO
7.	Will the Reasonableness and Consistency of Assumptions Certification required by Actuarial Guideline XXXVI (Updated Market Value) be filed with the state of domicile and electronically with the NAIC?	NO
8.	Will the Life PBR Statement of Exemption be filed with the state of domicile by July 1st and electronically with the NAIC with the second quarterly filing per the Valuation Manual (by August 15)? (2nd Quarter Only) The response for 1st and 3rd quarters should be N/A. A NO response resulting with a bar code is only appropriate in the 2nd quarter. In the case of an ongoing statement of exemption, enter "SEE EXPLANATION" and provide as an explanation that the company is utilizing an ongoing statement of exemption	N/A
	AUGUST FILING	
9.	Will the regulator-only (non-public) Communication of Internal Control Related Matters Noted in Audit be filed with the state of domicile and electronically with the NAIC (as a regulator-only non-public document) by August 1? The response for 1st and 3rd quarters should be N/A. A NO response resulting with a bar code is only appropriate in the 2nd quarter.	N/A
	Explanation:	
1.	The data for this supplement is not required to be filed.	
2.	The data for this supplement is not required to be filed.	
3.	The data for this supplement is not required to be filed.	

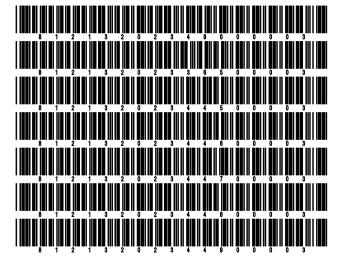

Bar Code:

1. Trusteed Surplus Statement [Document Identifier 490]

4. The data for this supplement is not required to be filed.

5. The data for this supplement is not required to be filed.
6. The data for this supplement is not required to be filed.
7. The data for this supplement is not required to be filed.

- 2. Medicare Part D Coverage Supplement [Document Identifier 365]
- Reasonableness of Assumptions Certification required by Actuarial Guideline XXXV [Document Identifier 445]
- Reasonableness and Consistency of Assumptions Certification required by Actuarial Guideline XXXV [Document Identifier 446]
- Reasonableness of Assumptions Certification for Implied Guaranteed Rate Method required by Actuarial Guideline XXXVI [Document Identifier 447]
- Reasonableness and Consistency of Assumptions Certification required by Actuarial Guideline XXXVI [Document Identifier 448]
- Reasonableness and Consistency of Assumptions Certification required by Actuarial Guideline XXXVI (Updated Market Value) [Document Identifier 449]
